

BEANS, BEANS, BEANS

This contest will run until one of the jars is filled with beans. The chapter will be divided randomly into 2 teams: the Navy Beans and the Black Beans. Each team is working towards filling their jar with beans first. The first team that fills their jar will win.

TOPS: Each $\frac{1}{4}$ pound loss earns 5 beans into your team's jar. Each $\frac{1}{4}$ pound gain earns 5 beans into the other team's jar. There is no limit to the amount of beans you can earn each week. KOPS: Below goal earns 20 beans into your team's jar. At goal earns 10 beans into your team's jar. Above goal earns 5 beans into your team's jar. Above leeway earns 20 beans into the other team's jar. At the end of the contest the beans will be counted in the full jar and 1 penny per bean will be awarded and divided evenly among all team members that weighed in at least half of the weigh-ins during the contest.

We used 2 large decorative jars of the same size. The KOPS are divided evenly among both teams.
