

Easter Picture

Have a paper, draw tree grass rocks, then for each pound lost the member draws an Easter egg with their name on. For each stay for the meeting, members draw a leaf on tree. For a gain, use black, and color in 1/2 egg put on by loss, as someone has 1/2 eaten it. Then total up all eggs for each member, and most wins.

For KOPS

-put Easter egg up for each *loss *at/below goal

*gain if too low in leeway -Color black for gain above goal, or out of leeway -color leaf for staying for meeting. Count the same way as KOPS
