

Thanksgiving Basket

Start with a honeycomb turkey (you know the type you use for center pieces) and add feathers to the slots. These feathers will have the names of the various items that are part of our thanksgiving dinner. This is a great contest and the rules are simple. All you have to do to win is lose wt and that's why we come to Tops. This contest runs from the 1st week in Oct until the last weigh in before Thanksgiving. All chapter members are included in this event and everyone has a chance to win a basket.

Each week that we weigh in and have a loss our name goes in a box. On the last day of the contest a name is drawn from the box and this member wins the basket. If your chapter has to go through the feathers more than once have more than one basket. Items are then divided up evenly. The chapter treasury donates \$5-7 to help buy a turkey for each basket. Each week you don't have a lose a feather is drawn and you get to contribute to the basket This means if you stay the same, gain or if you do not attend the meeting for any reason you get to donate the item on the feather. Everyone brings in their item the next week and the perishables are brought the last week. No feathers are drawn from the turkey the last week of the contest. Special for KOPS and KIW if you are above your goal you must draw a feather, if below your goal you put your name in the box for the basket.
