

# Easter Egg Contest

**Have a basket of plastic eggs. At least one for each of your members. Ones you can open. During weigh in, they pick a egg, but they can't open it until roll call.**

**Inside each egg is a number. From 1-20. There are two extra paper slips, one has a chicken on it, and the other has a bunny. The Chicken is worth triple points, and the bunny will be double points.**

**One is put in an egg, doesn't matter what other number it goes with. You will want to change it each week so its always different.**

**At roll call the member opens the egg. If the member gets a number of say 5, and she has a loss, she has a +5. If the member has a gain, she would have a -5. If the chicken was with the 5, she would have either a +15 or -15. A turtle is counted as a loss.**

**KOPS= if a KOPS is above Goal or out of leeway, it is counted as a gain -,for the contest. If at Goal or under Goal it would be counted as a Loss or +.**

**At the end of the contest the person with the most points wins. Prize should be picked before contest is started. The number of weeks this runs is up to you.**
